Dear new client

Thank you for your interest in Phenomenal Touch™. I am looking forward to meeting you and working with you.

Phenomenal Touch™ can offer healing on many different levels. Whether you are looking for relaxation from your stressful life, recovery from an injury or a regularly scheduled maintenance program, you will find Phenomenal Touch™ truly exciting.

If you are on your path of transformation, consider our packages of multiple sessions. You might be working on discovering your connection to your body; loving and honoring the body you are living in; shedding experiences your body has been holding on to for a long time; feeling more alive and vibrant; learning to receive safe touch; I will listen to your goals and hold the safe container for your experiences.

An added opportunity presents itself at Camden Whole Health in collaboration with our other practitioners. If desired a package can be designed e.g. to combine psychotherapy with Phenomenal Touch. Please speak to me if this sounds interesting.

Enclosed you will find an intake form. Please consider filling it out as thoroughly as you are comfortable with. The information will help me getting a well-rounded picture of your person, so I can better serve you. It also provides an opportunity for your reflections and might provide new insights and connections in which body work may meet your needs.

Please bring the completed Intake and signed Consent form to your appointment. Keep one "Explanation and Consent" form for your own records.

My office is located on Rt 1, corner Park St , close to TD Bank and Rennys

Blessings,

Antje Roitzsch

**Phenomenal Touch- Explanation and Consent**  
(for your own record)

Phenomenal Touch is 3-dimensional massage incorporating stretching and moving the recipient in ways that might include draping limbs over the table, or over the practitioner's (my) leg or arm, letting gravity pull the weight of the recipient's body into my hands. Variation in speed is part of the method, and sometimes momentum is used to move the recipient about.

This work can feel intimate at times. It can bring one back to a childlike state of being held and nurtured. While it might feel sensual, my intent is nurturing and not of a sexual nature. Should sexual feelings arise I will work with you to redirect them to nurture your heart. I never engage in any sexual activity with my clients. Bodywork can trigger emotional responses. Emotions, especially those from trauma, are often stored in our tissue. Working and releasing tension in tissue can also release emotional responses, triggering memories. This in itself could be a path for healing. But please let me know if you are concerned about this.

**How to best receive Phenomenal Touch:**

- Be an active participant.
- Listen to your body.
- Notice where you are tight, feeling good, loose.
- Breathe into the 'nice' pain. Bring your breath deep into your body, into the tight areas.
- Your breath is my guide.
- Let your body respond instinctively. You are encouraged to move around and make sound.
- Imagine yourself being a rag-doll, giving up control. Letting me move you takes trust.
- Trust needs to be earned and takes time. Over the period of a few sessions you will notice a difference. You also have a better idea of what to expect. It will be easier to let go.
- I am reading your body and picking up if I can move fast or slow, how deep I can go, how much I can stretch a muscle. Please let me know if I don't pick up on it or react too slowly.
- I welcome your verbal feedback or moving my hand to a more effective area. You are the choreographer of this dance we call Phenomenal Touch.

**Consent:**

I agree to give at least 48 hours notice if I need to reschedule my appointment. If I give less than 48 hours I agree to pay the full amount of the missed appointment. If I arrive late for my session my session might be reduced by that time and I agree to pay the full amount. In the case of illness or emergency the appointment can be rescheduled.

I understand that all written records and notes for my sessions are kept strictly confidential and will not be shared with any outside agency, establishment, individual organization or medical facility without my written consent.

I acknowledge that massage is not a substitute for medical examination or diagnosis, and that it is recommended that I see a primary health care provider for that service. I have stated all medical conditions that I am aware of and will update the massage practitioner of any changes in my health status.
